## OBJECTIVES AND CHALLENGE

Mayor McDonnell felt strongly that his term in office would be a period of challenge to the Gild. His sidebar letter which replaced the Gazette ably sets forth his objectives and challenges to the Gild. He wrote strongly of the revitalization of the gas industry in general and the job ahead, a strong membership and financially healthy Gild. Another objective - a return to the basics - enthusiasm, reputation, cooperation, ideals, character and ethics - all spells out in detail "The Gild". A suppler is the best partner a burgher can have in the gas industry.

Summing up the above stated activities, Mayor McDonnell had an effective term of office. His emphasis on friendship was felt thru the Gild. Great council meetings very well attended. All officers worked hard. Membership responded in great numbers to his questionnaire. Many fresh ideas came from that response and the Gild has prospered. Breakfasts took on a new meaning.

The wassails came in for great praise from all who attended. They reflected real enthusiasm and friendship. "Partners together in a great industry".

The capes ring ceremony meant a new leadership for the Gild. 1982-83 J. W. Adams accepted his responsibility, placed the cape with P.M. XVII on outgoing Mayor Bill and received in turn the mayor's cape.

Mayor William McDonnell presents outgoing A.G.A. Chairman C.C. Ingram with the Gilds award. Gild officers share the pleasure.

Here's our Mayor Bill and his "sunshine" officers taking time out from a busy session of the great council on a sunny day in Florida. Four P.M.s were on hand to enjoy the get together.

At the A.G.A. Operating Section luncheon on Monday, outgoing A.G.A. Chairman Robert H. Willis, left, was presented the Gild of Ancient Suppliers Award. Formed in 1937. The lamp is a ceremonial gift to honor Willis' induction into the Gild and to recognize his outstanding service to the natural gas industry.

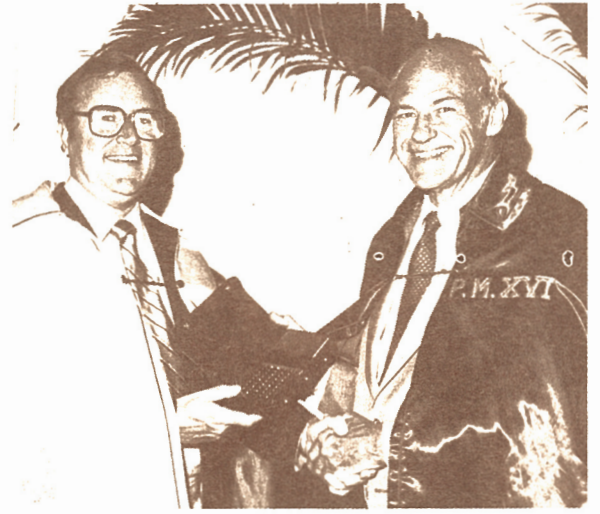

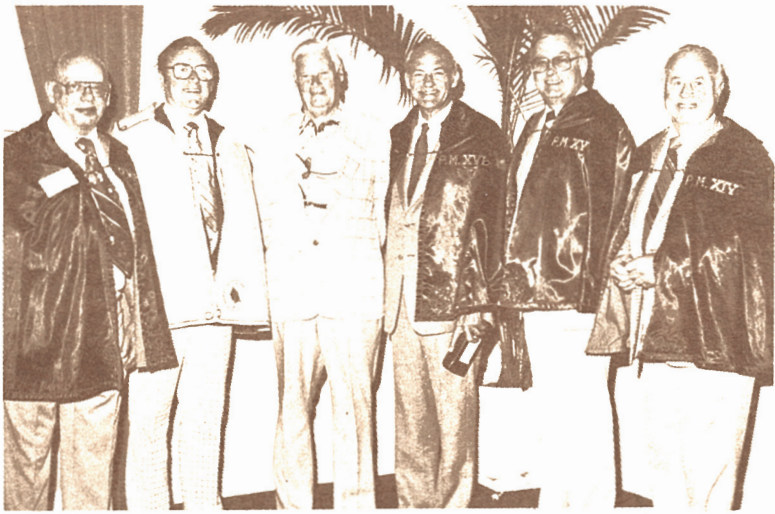

What a terrific get together of officers and reunion in Arizona. If you think these suppliers didn't have a great time, take another look at friendship and industry reunion.
