ACCOMPLISHMENTS

Revitalizing the Gild....Mayor Brown intended for all members to view their membership in the Gild as an esteemed honor. We realized many things have fallen to the wayside and worked hard to recreate the level of nobility the Gild founders envisioned in creation of the Gild in 1937. Larry brought on Anne Blong of Equipment Controls Company as the new Assistant Keeper of the Treasure to replace Shirley Innaurato.

The Gild's new website www.suppliersgild.org was set up and continued to expand and improve through the efforts of our Asst. Clerk and Keeper of the Treasure, Anne Blong and Clerk, Dean McGowan. The site includes the updated Gild Membership List, current Gild Officers, Gas Industry Related Events Calendar, Photos from Gild Events, Meeting Minutes, Forms, an online membership proposal form and more.

Larry Brown began his career in the Natural Gas Industry with Equipment Controls Company in 1985. Throughout his career, Larry has served on members committees and published several articles on natural gas for the following industry associations:

- American Public Gas Association – currently serving on APGA Board of Directors
- Tennessee Gas
- Alabama Natural Gas – Former member of Board of Directors
- Florida Natural Gas
- Texas Gas Association
- The former Southeastern Gas Association, now SGA
- Society of Gas Operator
- Two-time Board of Directors member and former Chairman of Associates of Southern Gas Association
- Affiliate Member of Distribution and Transmission Engineering Committee for AGA
- Gild of Ancient Suppliers
